

SERVICE SOLUTIONS // ELECTRIC HIDE PULLER ON-SITE SERVICES

HOW TO MAINTAIN EFFICIENT DEHIDING ON YOUR ELECTRICAL ALL-ROUND HIDE PULLER

Ensure high performance with prolonged life-time by having your certified Frontmatec specialists verify the operational condition and tension of the dehiding chains, as well as ensure that the operation between the hook release, electrical stimulator, along with the pull force of the roll and frame meet the specified requirements needed to achieve continuous efficient and high quality dehiding.

Maintain a smooth operation with a high level of safety with the help of your skilled and experienced service specialists, who know how to verify the function of the stop sensors, essential to ensure the precise end-position of the chain, as well as approving the condition of the platform valves and cylinders for optimal flow and speed combined with a high level of safety.

Stay prepared for the unexpected by stocking critical spare parts for daily operation, such as chain, cylinders, stop sensors and bearings.
