

SERVICE SOLUTIONS // APB7 ON-SITE SERVICES

HOW TO ENSURE HIGH QUALITY CARCASSES WITH THE AUTOLINE BUNG DROPPER

Achieve yield improvements by having your certified Frontmateg service specialist perform a scheduled service, where they carry out the exact alignment your APB7, control the vacuum system and carry out the exact adjustment of the drill house and blades, ensuring the precise bunging and separation of the ham needed for you to achieve highest quality carcass and best price for meat.

Have a smooth operation with pro-longed life-time and low maintenance with the help of your service specialists who will ensure the optimal condition of the bearings for the highest possible protection of the supporting rollers and frame.

Stay prepared for the unexpected by stocking the most used spare parts for daily operation, such as power cables, drive-click cables, motors, gearboxes, etc.

Additional product solutions for your APB7:

A minimum 2-4 services a year are recommended for maximum operation efficiency
